TWEDDLE™ GROUP — CJK GROUP

FOR OEMS, DEALERS & THIRD-PARTY SUBSCRIBERS

TIME FOR YOUR PRODUCT INFO TO START PAYING RENT (BUT YOU'LL STILL CONTROL WHERE IT GOES)

Service Portal would already be worth its weight simply for unifying your service content behind one login. But it also lets you license curated, permissioned views of that content to independent repair outlets, insurance companies and partner manufacturers. So it also contributes to your bottom line... while you decide exactly which users access what info, and maintain total control.

COMPLIANT WITH **Right-to-Repair Act (USA) & Commission Regulation (EU) No 461/2010**

BUILT FOR CONTENT DISTRIBUTION IN THE REAL WORLD

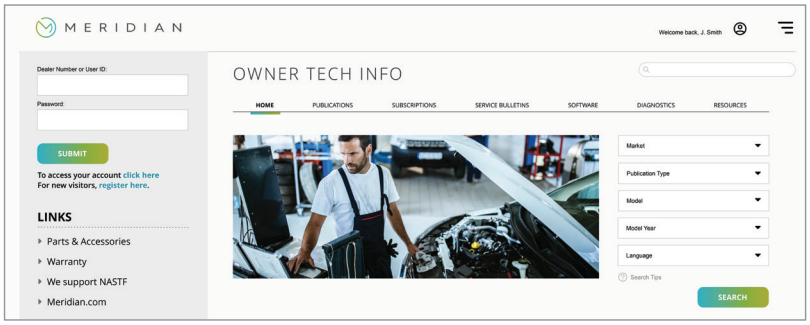

Update & Recall Distribution
Push a recall once and it reaches every screen, or compel the execution of critical TSBs

Permission-Based Licensing
Offer curated content bundles to repair outlets, insurers and partners

ID by VIN, Click or Code
Multiple paths to the right content for the exact unit, every time

Single-Point Content Correction
Author once, publish everywhere, and enjoy the same simplicity for maintenance & revision

TOTAL CONTROL OF YOUR INFORMATION DISTRIBUTION

WEEKS-MONTHS *TO LAUNCH, VERSUS 12-24 MONTHS FOR A COMPETING CUSTOM BUILD*

Service Portal centralizes information maintenance, access and control, delivering up-to-date content according to user identities. Owners get plain language. Technicians see expert detail. Independent repair shops get the OEM-sanctioned content they need to service your products right. All with one login: to the bay tablet, counter laptop or office desktop.

MORE THAN A PORTAL, IT'S A PROFIT CENTER

100+ DEALERS | INDEPENDENT SERVICE | INSURERS | PARTNER MANUFACTURERS

IDENTIFY
Every VIN or product code gets you to the exact content, every time

CURATE
Role and permission decide exactly what that user sees, and how much detail

DISTRIBUTE
License that curated view to repair outlets, insurers, or partners, on subscription
